ABOUT AURORA EXPEDITIONS

Aurora Expeditions take you on voyages of discovery to inspiring regions, creating lifelong ambassadors for the protection of these precious places.

Less is More

Smaller groups mean more solitude and greater flexibility if tides or weather dictate a schedule change, and because there are fewer people to ferry ashore, there are often more landings.

Sustainability

Aurora Expeditions are proud to be a Certified B Corporation™, with an ongoing commitment to protect the world's wild places and an aim to become the global leader in sustainable expedition travel.

Ships

The *Greg Mortimer* and the *Sylvia Earle* each accommodate just 132 passengers. Small enough to go where others simply can't, they were purpose-built for the most remote places on earth. Their bow design cuts through the swell so you feel fewer vibrations, move quickly and use less fuel, while dynamic stabilisers offer unrivalled stability.

Indoor lounge areas offer floor-to-ceiling windows and open decks allow expansive views. Use the gym, relax in the sauna or outdoor jacuzzies, hear inspiring lectures, share tales in the open seating dining area, or relax in your beautifully appointed cabin.

Excursions & Activities

Efficient loading platforms get you out on excursions quickly. The 'mudroom' offers lockers, changing areas and storage, so you're not traipsing through the ship in your outdoor gear! Every excursion is led by experts to enhance your experience and ensure safety. Activities include photography, trekking, camping, skiing, kayaking and more! Book in advance. Some activities incur an additional cost.

Solo Travellers

If travelling alone but willing to share a cabin, Aurora will pair you with another same-gender solo to avoid the solo supplement. If a match can't be found, the solo supplement is waived! Or, you may request a private cabin which incurs a 50% supplement.

Destinations

Other than the Antarctic Peninsula, Falklands & South Georgia, Aurora Expeditions also cruise Norway, Greenland, Iceland, Costa Rica, Panama and Patagonia.
